

## Blepharoptosis

Med Tekh. 2002 Nov-Dec;(6):14-6.

### **[Combined treatment of congenital blepharoptosis in children and adolescents]**

[Article in Russian]

[Kokorev VIu](#), [Riabtseva AA](#), [Gerasimenko MIu](#), [Filatova EV](#).

The paper deals with a complex procedure for rehabilitation of children with congenital blepharoptosis, which includes the multilevelled impact on the concerned central and peripheral links of the neuromuscular apparatus by using magnetic laser therapy and electrostimulation.
